

Evacuation information

Emergency call numbers

AP Ch. Charmette J. Cartier 91-50

LOGE 30-00 FIRE DEPARTMENT 018

INCENDIE

When you discover a fire :

1- Warn people nearby, sound the nearest alarm.

2- Use the available means of extinction

3- Call reception **91-00** from a safe location and give the essential informations :

- your name.
- which room is concerned.
- what kind of fire.

If you are alone in the laboratory, call the fire department.

18

Follow the procedure set at reception desk (downstairs).

PREVENTION

- Don't let anything in the corridors or exit.
- Let free access to the extinguishers.
- Keep the fire doors closed every night and in case of evacuation.

EVACUATION

When you heard alarm (siren).

Close windows and doors (doors not lock).

Go to emergency exit.

Never use the lifts in an evacuation.

Do not return to your work place if you are elsewhere.

Remember to walk as close as possible to the ground where the concentration of toxic products is weaker.

Go to the gathering point.
